Summary

Software Engineer with professional experience in developing scalable enterprise systems and AI-integrated solutions. TOPCIT Level 3 Certified, validating a strong ability to bridge technical architecture with business requirements. Adept at managing full-cycle projects, from system design and optimization to automated deployment.

Work Experience

SAP ABAP Bootcamp Intern | Accenture

February 2026 – May 2026

- *Enterprise Systems Training*: Completed an intensive bootcamp focused on SAP ABAP (Advanced Business Application Programming) for large-scale ERP system development and customization.
- *Backend Development*: Developed custom ABAP reports, data interfaces, and backend logic utilizing ABAP Open SQL for optimized data retrieval and manipulation across enterprise modules.
- *Data Dictionary Configuration*: Configured SAP Data Dictionary (DDIC) objects, including custom tables, structures, and data elements to support complex business requirements and system integrations.
- *ALV Programming*: Built interactive ALV (ABAP List Viewer) reports with dynamic filtering and sorting capabilities to streamline business data presentation for end-users.

Software Engineer | Independent Contractor | Concisium

January 2026 – April 2026

- *Project: AEVA (AI-Powered Voice Agent Platform)*: Leading the migration of 9 complex automation blueprints from Make.com to a production-grade server-side architecture using Node.js and TypeScript.
- *PMS Architecture*: Engineered deep Cliniko Practice Management System (PMS) integrations for automated appointment booking, rescheduling, and multi-location availability checks
- *Real-time Tooling*: Developed high-performance VAPI tool handlers to facilitate live-call data lookups and dynamic variable injection during patient interactions.
- *Notification Systems*: Designed a composable HTML email architecture for 13+ unique transactional types using Postmark and custom integration wrappers.

Backend Developer | Project-Based | TMG HRIS

January 2026 – March 2026

- *Database Engineering*: Defined and finalized relational database schemas for Attendance and Leave management using Prisma, ensuring type-safe data handling across the application.
- *Server Actions*: Implemented secure Next.js Server Actions for core employee functions, including real-time clock-in/out logic and status management.
- *Frontend Optimization*: Developed a system-aware dark mode utilizing Tailwind CSS v4 custom variants and next-themes for a seamless user experience.

Academic Experience

Research Presenter & University Representative

International Conference on Multidisciplinary Filipino Studies (ICMFS) 2025

September 2025

- Represented the University of Southern Philippines Foundation (USPF) at an international research forum at the University of Santo Tomas.

- Defended technical architecture and gamification strategies to a panel of international academics and industry experts.
- Team Lead & University Representative

CEB-I Hacks 2025 (Mactan-Cebu International Airport & Google)

October 2025 – January 2026

- Led Team ATXI in a competitive innovation hackathon, securing a placement among the Top 25 Innovators.
- Presented the solution's social impact and technical feasibility to a panel of experts from Google and MCIA.

Technical Skills

- *Languages & Core:* PHP, JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3, GDScript (Godot)
- *Frameworks & Engines:* Laravel, React Native, Next.js, Godot Engine, WordPress Custom Dev
- *AI & Backend:* Vercel AI SDK, OpenClaw Framework, Prisma, Supabase, Node.js, Express
- *DevOps & Tools:* Docker, Git/GitHub, CI/CD Pipelines, Linux (Shell/Cron), Postman, Heroku

Certification

TOPCIT (Test of Practical Competency in ICT)

Level 3 Institute for Information & Communications Technology Promotion (IITP)

December 2025

- Achieved Level 3 certification with high proficiency in IT Business & Ethics (89.5%) and System Architecture (80.0%), validating skills in bridging technical systems with business requirements.

Education

Bachelor of Science in Information Technology

University of Southern Philippines Foundation (Cebu City)

2023 – 2026

Bachelor of Science in Information Technology

Systems Technology Institute (STI, Pasay City)

2021 – 2023
